Dual VET in Development Cooperation: Still Relevant? Where Do We Go?

For seven years now, the Donor Committee for dual VET (DC dVET) has worked intensively on the topic of dual VET in development cooperation. As a result, we got insights into dual VET approaches and elements in VET projects around the world, contributed to thematic exchanges and coordination and elaborated resources on key topics.

Together with you, we want to take stock, discuss benefits and challenges of dual VET in development cooperation, and assess its potential for the future.

The public online event will take place on

Wednesday 10 November from 10.30am – 5pm CET.

With inputs from high-level representatives from the DC dVET members, renowned experts and practitioners, the lively program brings us to different contexts and perspectives and allows us to actively discuss key aspects of dual VET in development cooperation.

**Join us for this online event and let's continue
to use common strengths to make the difference!**

The detailed program and the link for registration will be sent to you later this month.
